A FRESH TAKE ON URBAN COMMUTING

The Hyundai Veloster is a car like no other. It combines the exciting styling cues and aggressive stance of a sports car with the space and everyday practicality of a hatch.

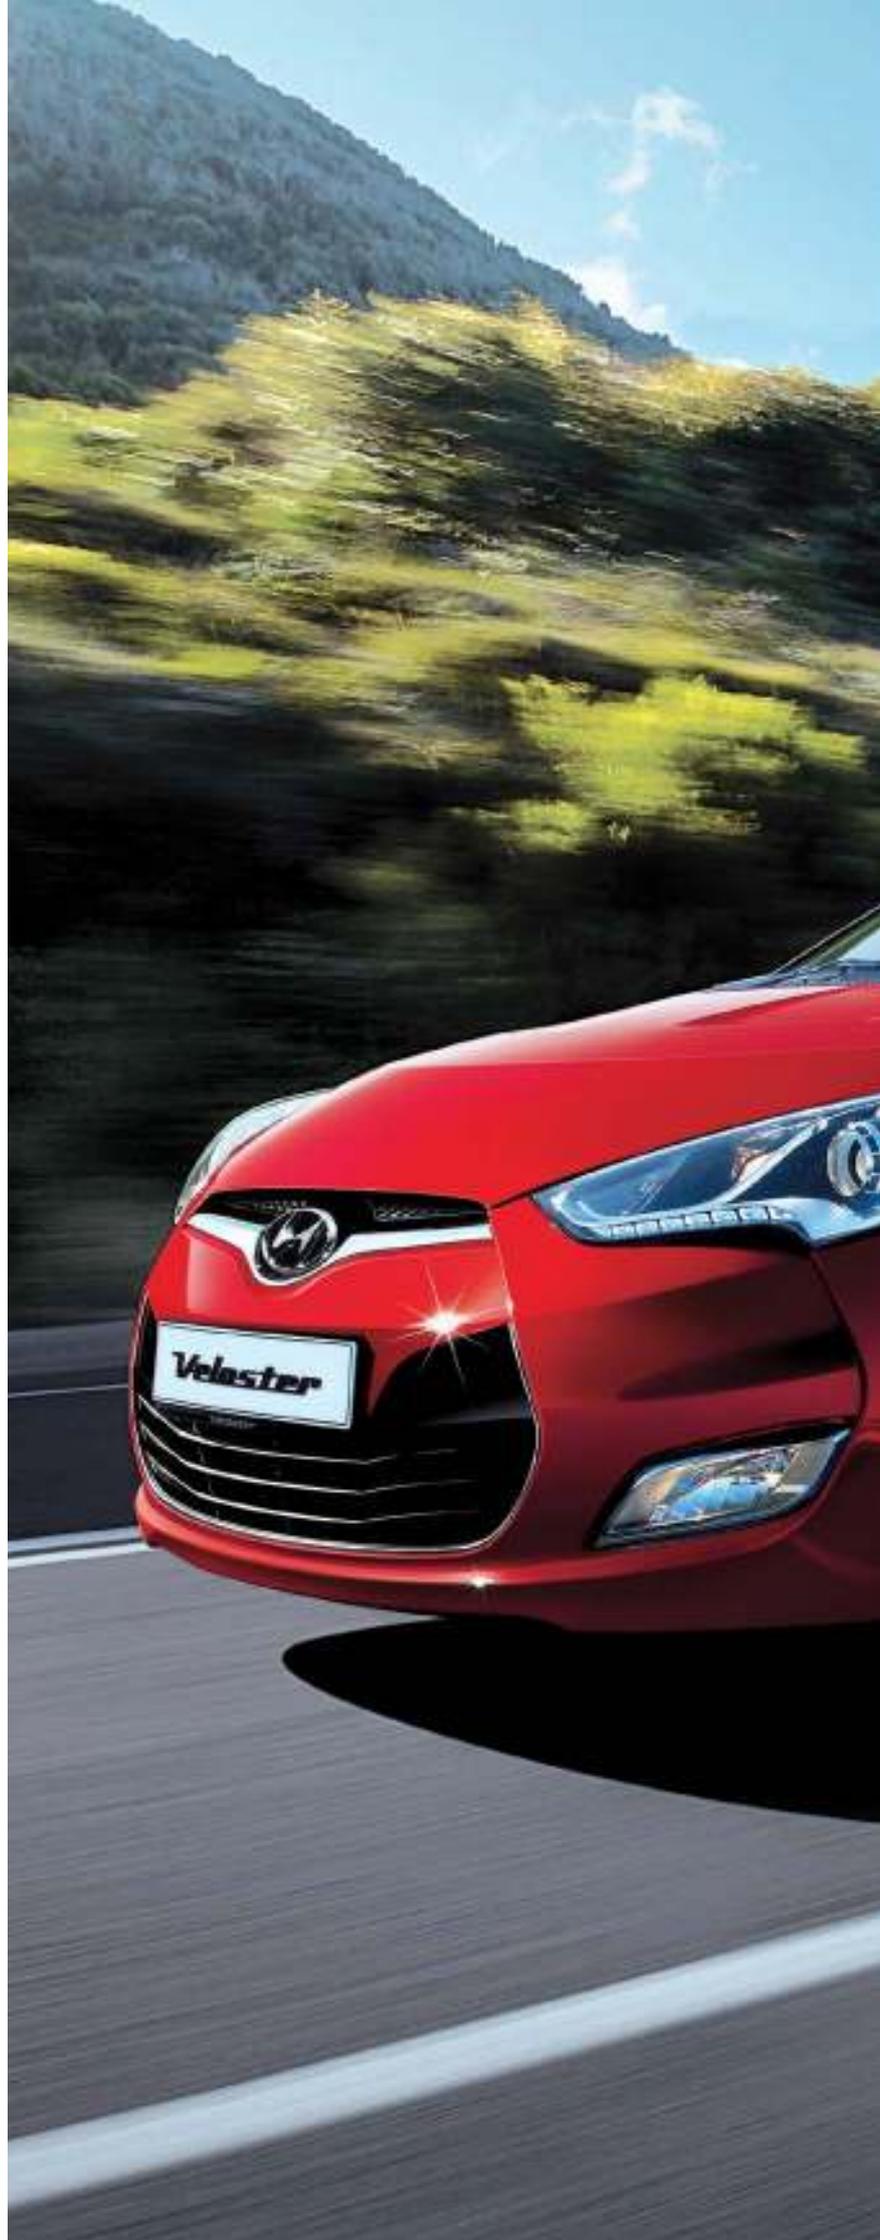

The Veloster offers spirited performance and a fun driving experience that's made even more pleasurable through exceptional fuel economy and low emissions.

At the same time, the Veloster has also been designed to meet the demands of today's modern world, and matches its impertinent good looks with the down-to-earth functionality that makes a hatch so practical. That means there's room for all your stuff, as well as driving comfort for four people.

Just like your portable electronic devices, the Veloster is packed with all the technology you need to keep connected to the things that matter most. What's more, it's loaded with safety features that will also help to keep you connected to the road.

Add to this the new Turbo model, which matches muscular design with powerful performance for a total sports car experience, giving you a truly progressive vehicle that is as exciting to drive as it is to look at.

Veloster. Totally original, totally cutting edge.

EXTERIOR

The Veloster's bold colours and aggressive raking lines give you the first clue that it might be something a little special. You can't see Veloster's unique 1 + 2 asymmetrical door configuration at first glance. You have to walk around it. Even then the passenger side rear door is brilliantly camouflaged thanks to its handle being cunningly concealed in the window frame to maintain the classic 2-door coupe look.

But when you spot it, your breath catches in excitement. Wrap around foglights, the assertive hexagonal grille, proud wheel arches and a low stance give you a sense of impending action. Veloster can't wait to be driven. The Veloster Turbo pumps up the action even further with an aggressively refined front and rear fascia along with side skirts and limited edition alloy wheels.

Daytime Running Lights (DRL):

The daytime running lights, standard on all models, serve two functions: added safety and elegant design. In other words, they help you to be seen better in low light conditions, and help you stand out from the crowd.

Dual centre exhaust:

Twin-barreled and chrome tipped. This is sportiness at its most captivating. The twin tip centre exhaust, stylishly shaped and built into the rear bumper, gives the Veloster an abundance of sporting character. The Turbo model also boasts a dynamic rear diffuser in the lower fascia, which integrates with the sculpted body to reinforce its aggressive styling, while also improving aerodynamics.

Chrome radiator grille:

An aggressive interpretation of Hyundai's signature hexagonal front grille provides the Veloster with a confident, dynamic and daring face to the world. The bold, forceful Turbo version couples with a sports-styled bumper to further enhance its low, ready-for-action stance.

Sculpted fluidic design:

Elegant features such as the projector headlights wrapped with daytime running lights reflect the Veloster's aerodynamic character lines, inspired by Hyundai's "Fluidic Sculpture" design language. The overall effect is a streamlined exterior that looks as though it's been carved by light rays.

INTERIOR

Inside, the Veloster delivers as much fun for passengers as it does for drivers. With a 7" multimedia colour touch screen with a new Satellite Navigation system that includes SUNA GPS Traffic monitoring, Bluetooth music streaming and USB input for your iPod, everyone's connected. Fingertip controls on the steering wheel control audio, Bluetooth phone and cruise controls, and only a short distance from the steering wheel is the start/stop button for convenient keyless engine ignition. Another button opens back the full-length panoramic sunroof. The centre fascia looks like the fuel tank of a racing motorbike. The rear load space is substantial and with split folding rear

seats it just gets bigger. Luxuriously upholstered sports bucket seats for driver and passenger just add to the feeling that the Veloster is a car you can't wait to get in.

Panoramic sunroof:

With the touch of a button, the full length two-piece panoramic sunroof transforms the comfortable cabin by filling it with light and air.

Sports bucket seats:

Bolstered sports bucket seats for the driver and front passenger enhance the coupé feel and provide high levels of support to reduce fatigue during long journeys. All models come with luxurious leather** seats with exclusive "Turbo" embossing on the Veloster Turbo model.

Supervision cluster:

Designed to be bright and easily readable, yet attractive and stylish. The supervision cluster also reduces fatigue on the eyes with the addition of soft blue lighting.

Generous boot space:

Open up the Veloster's tailgate and get ready for another surprise - a generous 320 (VDA) litre boot with more than enough room for all the luggage you need.

Alloy sports pedals:

Distinctive alloy pedals complement the sports flair of the interior and enhance the sporty driving experience.

10-way power driver's seat with lumbar support:

A power driver's seat allows adjustment at the touch of a button, including electric sliding, reclining and height adjustment. Added to this is a power lumbar support in the driver's seat, which helps to provide excellent support and comfort for the lower back.

Cup holder and storage space:

A cup holder and storage space located in the rear console provides a convenient place to hold drinks and other items.

SAFETY

Hyundai makes no shortcuts on safety. This is never more evident than in the abundance of safety features built into the Veloster. Like 6 airbags, including driver, front passenger, dual curtain, and dual side airbags for front passengers.

The Traction Control System (TCS) prevents wheel spin under hard acceleration or slippery conditions.

The ABS has Electronic Brake-Force Distribution (EBD) operating on each wheel individually. The Brake Assist System (BAS) applies maximum braking in emergencies, Electronic Stability Control (ESC) stops steering induced skidding. And the whole lot is encased in a rigid high tensile steel body.

5-star ANCAP safety rating:

The Veloster has achieved the maximum 5-star ANCAP safety rating for frontal and side impacts. As well as achieving our highest safety score thanks to its 2+1 door design reinforcement, it also comes standard with numerous active and passive safety technologies. All of which are designed to protect passengers and help the driver stay in control at all times.

Six airbags:

Passenger safety is further enhanced in the event of a frontal or side impact with six airbags on all models: dual front, dual side and dual front-to-rear roof curtain airbags. Front passengers also feature active head restraints, which provide better neck support by moving forward instantaneously in the event of a rear-end collision.

Dual centre rail roof:

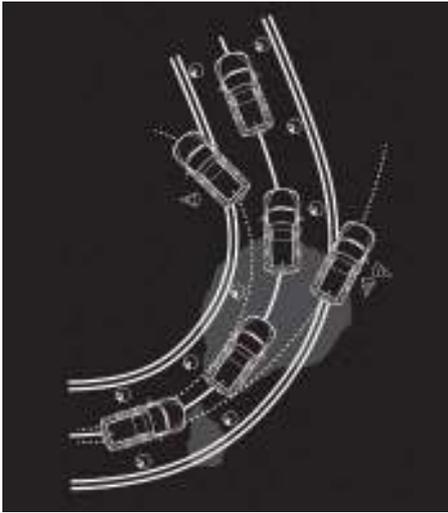

To provide further protection in a collision, both the dash cross member and side members, as well as the roof structure and pillars are made from reinforced sheet steel.

Electronic Stability Control (ESC):

This smart feature continuously monitors vehicle directional stability and tyre traction. If the system senses the car is about to skid and risks spinning out of control, ESC automatically intervenes by applying the brakes over individual wheels to prevent loss of directional control.

Vehicle Stability Management (VSM):

The Vehicle Stability Management (VSM) system helps maintain control of the vehicle by applying counter-steering assistance when needed, guiding you to the correct steering position.

Traction Control System (TCS):

Working in tandem with ESC, the Traction Control System helps prevent wheel spin under hard acceleration, when starting on a slippery surface or driving up a steep incline.

Hill-Start Assist Control:

This technology brings peace of mind and ends all anxieties about the vehicle rolling backwards when you're pulling away on a gradient. The system holds the car stationary after you release the brake to give you time to apply the throttle, and away you go (Veloster Elite model only).

TECHNOLOGY

Inside and out, the Veloster is a showcase of cutting-edge innovation. Throughout, smart and intuitive technologies have been pushed to the limits to make your driving experience safer, easier and more enjoyable.

An impressive 7-inch multimedia touch screen dominates the centre console and supports a range of advanced applications and systems that keep you connected, informed and entertained. Stream music, get you to where you want to go using the advanced Satellite Navigation system, talk handsfree on your mobile or watch movies when you're parked. All with intuitive one-touch functionality.

Satellite Navigation with SUNA™ GPS traffic monitoring:

The high-tech in-dash 7" LCD colour touch-screen Satellite Navigation system is loaded with NAVTEQ™ New Zealand street maps to help you find your way. It also incorporates SUNA™ GPS Live Traffic updates – a kiwi first – which offers you up-to-the-minute information on traffic incidents such as accidents, road closures, congestion, major road works and special events. When travelling in Auckland, Wellington and Christchurch, the Satellite Navigation system will route you around these time wasters when it detects them on your planned route. You also receive free yearly map updates for three years, updated in the second and third years when you bring your Veloster in for routine servicing. All of which means you can reach your destination with a minimum of fuss.

Proximity key:

With the Proximity key in your pocket, the Veloster recognises you. With the touch of a button on the door handle, the Veloster unlocks itself without you needing to press the key. And the push button start also means you can start the engine without turning a key in the usual way. Brilliant.

Premium sound system:

The 450-watt Dimension audio system powered by an external amplifier and featuring 7 speakers – including an 8-inch subwoofer – turns the Veloster into a mobile sound lounge.

Automatic climate control air-conditioning:

Once you've set the desired temperature, the auto air-conditioning system with integrated pollen filter takes care of the rest, ensuring the interior climate remains constant and comfortable.

Flex steer:

Hyundai's innovative Flex steer system allows each driver to select their preferred steering weight setting – Comfort, Normal or Sport – depending on the conditions and environment you're driving in:

1. Normal mode offers perfect support for city and country roads.
2. Comfort mode lightens the steering to improve manoeuvrability - perfect for tight spots and busy roads around town.

3. Sport mode unlocks the Veloster's potential on the open road.

The Flex steer system is conveniently controlled from the steering wheel.

Advanced audio system including Bluetooth handsfree phone system:

Listen to your music in your preferred format using Veloster's iPod, CD, radio, MP3 and USB connectivity. Steering wheel mounted audio controls add convenience and safety. The Veloster audio system also acts as a handsfree device for your mobile phone, enabling you to stream music directly from your Bluetooth enabled mobile phone or media device.

Finger tip controls:

The steering wheel mounted controls let you manage your music, sat nav and phone without taking your hands off the wheel. Skip to your favourite song, mute or adjust the cruise control, all while remaining in total control of your vehicle.

PERFORMANCE

Power and economy are beautifully balanced in the Veloster. It may be a hatch on the passenger side but on the driver's side it's a sporty coupe. On Elite models the 6-speed dual clutch transmission with steering wheel mounted paddle shifters enables you to zip through the gears. Veloster's muscular lines are not just about looking good but also increasing aerodynamics. As the 1.6L GDi engine generates an impulsive 103 kW at 6,300 rpm, slipperiness equals fuel savings.

And when it comes to grunt, the Veloster Turbo is even harder to match. Its twin-scroll turbocharged engine with front-mounted intercooler delivers all the on-demand muscle you'd expect and then some, packing in 46% more power and 60% more torque.

The suspension too is tuned for drivability, delivering greater agility,

performance and fuel efficiency. All of this means you'll find the Veloster is equally at home just purring around the city or being pushed on the open road.

Dual Clutch Transmission (DCT):

The 7-speed dual clutch transmission with steering-wheel-mounted paddle shifters, enables fast gear changes and features an electric motor-type clutch that provides improved driving quality, better fuel efficiency, reduced noise and prolonged durability (available on Turbo A7 models only).

Aerodynamics:

The Veloster's low coupe profile enhances its aerodynamics, while its smooth contours provide lower fuel consumption with a Coefficient drag rating of 0.32 (Elite model).

1.6L GDi engine:

You'll be amazed by Veloster's 1.6L GDi engine. It's both strong and

efficient, generating 103 kW at 6,300 rpm and delivering an outstanding combined fuel economy of just 6.4 litres for every 100km*. While the Veloster Turbo's new Gamma 1.6 litre twin-scroll turbocharged GDi engine with front mounted intercooler pumps out a massive 150 kW at 6,000 rpm, with 265 Nm of torque at 1,750 to 4,500 rpm. On the turbo model, this is mated to your choice of a 7-speed auto transmission or a silky smooth 6-speed manual.

Fuel efficiency:

In boldly declaring its aim to become the most fuel-efficient automaker on the planet, Hyundai has set a very high bar for itself. And the Veloster delivers on that promise with the choice of two GDi petrol engines and transmission combinations that help to deliver better fuel economy without compromising power and driving pleasure.

FINER FEATURES

1+2 DOOR CONFIGURATION

Expressive styling and smart features like the stealth third door turn form and function into a powerful attraction. The result offers the look of a sporty coupe with the added benefit of easy access for rear-seat passengers.

STEERING WHEEL MOUNTED CONTROLS

Remote control switches on the steering wheel provide you with fingertip control over the operation of the audio and Bluetooth functions, as well as the auto cruise control and the trip computer. This makes driving safer by keeping your eyes on the road.

PREMIUM SOUND SYSTEM

The premium audio system turns the Veloster into a mobile sound lounge. It includes connectivity for iPod and MP3 player devices and is powered by an external amplifier and features four speakers, two tweeters, plus a centre speaker and a subwoofer.

PUSH BUTTON START

Starting the Veloster's engine is as simple as pushing the start button while the key is still in your pocket or bag.

PANORAMIC SUNROOF

With the touch of a button, the full-length two-piece panoramic sunroof transforms the comfortable cabin by filling it with light and air.

AUTOMATIC DUSK SENSING HEADLIGHTS

This is truly enlightened technology. Auto dusk sensing headlights feature light sensitive exterior sensors to recognise lowering light levels and turn the headlights on when needed.

REVERSING SENSORS

Sensors in the rear bumper detect obstacles when reversing, with a beep sounding when the car gets too close to an object or kerb.

REAR VIEW CAMERA

The Veloster gives you eyes in the back of your bumper with a live video feed to show you exactly where (and what) you're backing into. The camera in the rear sends the images to the 7" LCD screen for an instant picture.

ACCESSORIES

WEATHER SHIELD

A transparent cover fitted to the driver's door window allows the window to remain slightly open in all weather.

CARGO LINER

Protect the luggage area from wear and tear when loading and unloading luggage from the boot, while the high lip around the edge of the cargo liner helps contain spills.

CUSTOM MAT SETS

The custom mat sets are great to protect the Veloster's carpet from wear-and-tear, and provides a smart finish to the interior of the Veloster.

DASH MAT

New Zealand's harsh summer sun is relentless, so choose the dash mat and the colour and finish of the dash will stay in pristine condition for many years to come, no matter how harsh the kiwi sun gets.

FRONT PARKING SENSORS

This option offers the extra reassurance of parking sensors positioned at the front of the Veloster. They'll cleverly warn you of an imminent impact even if you can't quite see what's in front of you.

LUGGAGE NET

There is an option to fit the floor of the Veloster boot with a luggage net that can be set up horizontally or vertically, and contains your luggage while driving.

CARGO MAT

Keep your boot interior in pristine condition no matter what you load in it, with a carpet-like boot liner, specially designed to fit around the contours and mountings of your Veloster boot floor.

INTERIOR LIGHTS

Activated upon entry, a soft blue light emanates from the driver and passenger front footwells, illuminating the Veloster's interior, taking it to new levels of style and sophistication.

BODY KIT

Veloster Elite models can be fitted with a sporty and dynamic body kit including side skirts and a redesigned front and rear, which adds further distinctive style.

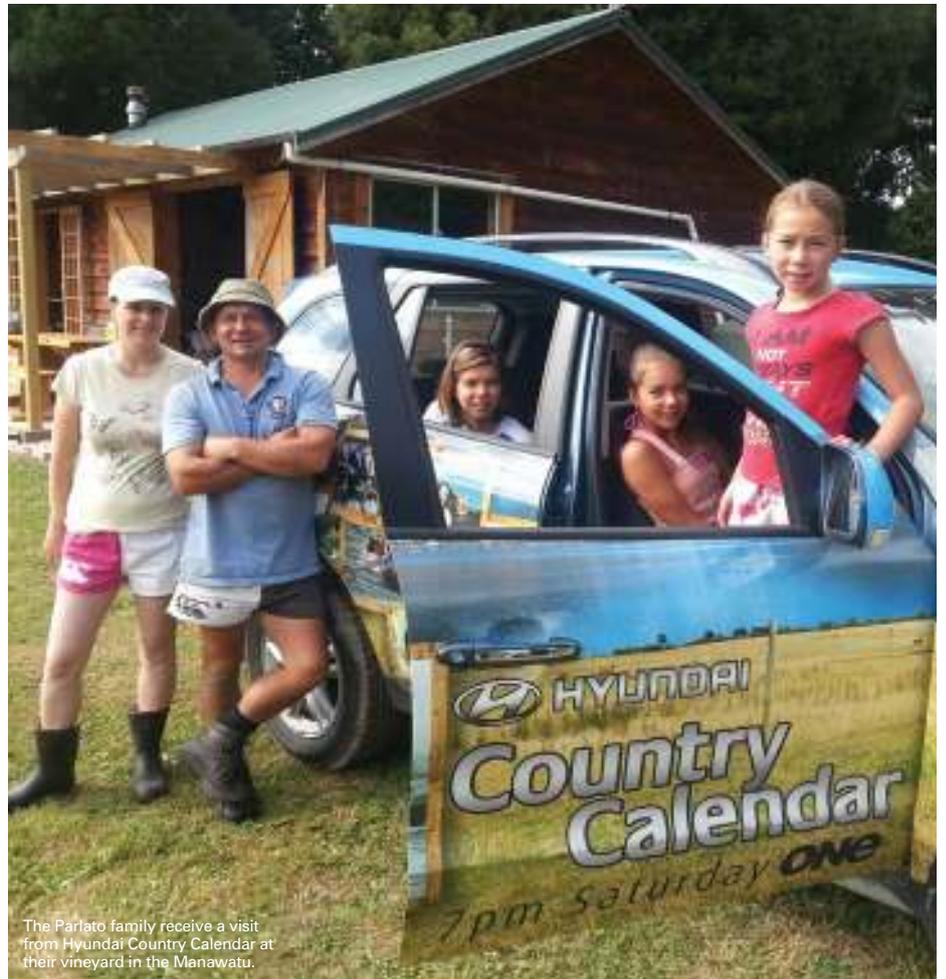

HYUNDAI'S COMMITMENT TO YOU

Our Promise

We understand your decision to purchase one of our vehicles is not being made lightly and we thank you for putting Hyundai on your list. We know that by the time you decide which vehicle you want to purchase, you'll have had a good look at what's on offer in the market, and carefully weighed up the pros and cons of each. We hope you make the right decision for yourself. If you do decide to choose Hyundai, that won't be the end, it'll just be the start. Our goal is to live up to the confidence you've shown in us, by giving you the best customer service experience in New Zealand.

We call this the Hyundai Ownership Experience – which is a slightly corporate way of saying “we promise to look after you”.

The Ownership Experience will actually start before you even have the keys in your hand, as your Hyundai dealer takes you through the things you need to know to get the most out of your new vehicle.

The Parlato family receive a visit from Hyundai Country Calendar at their vineyard in the Manawatu.

For Liv's Real Story go to www.youtube.com and search 'Hyundai Real Stories'

Personal Handover

When you come in to pick up your new Hyundai, your dealer will take you through it from bumper to bumper. They'll show you where everything is and how everything works. They'll make sure you're across all those little things most people forget to ask about, like:

- » How to set up your mobile phone to work with Bluetooth
- » Where the tool kit and spare tyre are
- » How to connect and play your iPod through the audio system
- » Where to find the first aid kit and fire extinguisher

They'll also check there's a full tank of fuel, that the vehicle is spotless inside and out, and that any accessories you specified are fitted just so.

This is also our opportunity to introduce you to the service team, who'll be looking after you in the years to come.

“HAD A GREAT EXPERIENCE WITH BAYSWATER HASTINGS, TEST DRIVING AND PURCHASING OUR NEW SANTA FE”

— BAYSWATER HASTINGS HYUNDAI CUSTOMER FROM HASTINGS

Meet the rest of the family

There's a good reason why your dealer will introduce you to the rest of the family. They're the people entrusted to be hands-on through your Ownership Experience – the team who'll look after you and your vehicle when you come in for scheduled servicing.

There's no charge for the first one, and it happens after the first month on the road. Then it happens every 15,000 km (or yearly) after that.*

It's always good to be able to put a face to a name. And knowing them means you can call personally to discuss any concerns. Our people are experts at what they do and keen to show you how good they are. It's a pride thing and we encourage it.

iQ Enrich your Hyundai ownership with iQ

Hyundai iQ is an online space designed to make your experience of owning a Hyundai even more seamless. On iQ you'll find practical tools, like the ability to set up reminders for when your next service is due, when your WOF and Road User Charges are about to expire and more. You can even book your next service online, and if you have your vehicle serviced at a Hyundai dealership, your service history records will show in iQ.

Also, if you update your odometer in iQ once in a 6 month period and

A superb warranty and Roadside Assist

Every new Hyundai is protected by our 3 year / 100,000 km factory warranty. In a nutshell, if there's any manufacturing issues, we'll fix them. But there's more.

Hyundai Roadside Assistance is included as part of our new vehicle warranty. It means if you should have an accident, puncture a tyre or run out of fuel, anywhere in New Zealand, we'll send someone to get you up and running again – 24 hours a day, 365 days a year.

Extending your warranty beyond the factory period can make your ownership experience better yet. It's certainly worth considering. Our extended warranties can later be on-sold with the vehicle, something sure to increase its eventual resale value.

you're eligible, we'll give you free roadside assistance for the following 6 months for free. There's heaps of fun stuff in iQ as well, like free Kiwi song downloads, kids'

audio books for the road, and a growing library of helpful videos for you to enjoy - and it can all be done on your computer, smartphone or tablet.

Join as an owner or non-owner and share your opinion about your Hyundai, or ask questions of existing owners about what it's like to own one. To sign up, simply visit www.hyundai.co.nz/iQ and complete the simple registration process. We look forward to having you in the iQ community!

www.hyundai.co.nz/iQ

Servicing from trained Hyundai experts

Regular scheduled servicing within our network has real benefits.

Our specialist technicians use Hyundai diagnostic equipment to spot things that may be missed by the untrained eye.

We use genuine Hyundai parts, of course. These parts are built and tested to be specifically correct for your vehicle and are covered by a 1 year / 20,000 km warranty.

Your safety and the safety of your passengers are our number one priority. We can't vouch for the safety or performance of non-Hyundai parts. They have to be only slightly off or incorrectly installed and the integrity of your vehicle will be compromised.

If the cost of servicing is a concern for you, committing to a pre-paid service contract from day one will cost you less in the long run. You can sign up for these to cover your servicing needs for every service interval, which is every 15,000 km or yearly (whichever happens first).* You can do this for as many years as you want, and they're available for any Hyundai, no matter how old.

Future New Zealand leaders as part of the Pinnacle Programme spend 21 days on New Zealand's iconic Outward Bound programme in Anakiwa, at the top of the South Island.

The Pinnacle Programme

The Pinnacle Programme is a unique scholarship, backed by Hyundai New Zealand, which provides talented young New Zealanders between the ages of 15 and 18 with the foundations for future success. The Programme is open to young kiwis with talent in all areas of endeavors, including, but not limited to, art, sport, science and business.

If you're a New Zealander that fits this criteria or if you know a young kiwi who could be suitable for the Programme, please join us on www.pinnacleprogramme.co.nz

Insurance

Our insurance offering is part of Hyundai's commitment to improving your ownership experience.

Hyundai Insurance offers several exclusive benefits not available with other motor vehicle policies. For example, if your Hyundai is still in factory warranty, was purchased from a Hyundai dealer in New Zealand and is damaged beyond repair, we'll replace it with a brand new one*.

There's no excess if your windows are broken, and we'll even cover up to \$1,500 for the trailer you were towing if that's damaged*.

You can be sure only guaranteed, genuine Hyundai parts will be used in repairs**, and that only approved repairers will be working on your vehicle.

We also offer a Hyundai Insurance specific 24 hour assistance number: 0800 123 266.

*See your Hyundai dealer for full terms and conditions.
 **Applies to new vehicles for five years.

Watch Ruby's story on www.familytimeproject.co.nz

The Hyundai Family Time Project

Kiwi families are busier than ever. We have less time for each other than we had a generation ago. We're certainly working longer hours.

We did some research and found that 50% of New Zealanders say work commitments are reducing the amount of time spent with their families and 30% believe work is eating into precious weekend time together.

This is not ideal, so Hyundai New Zealand has come up with an ambitious plan to help make things right. It's called the Hyundai Family Time Project and its

goal is to remind New Zealanders of the importance of every single hour they spend with their families.

To launch the project we gave away a year of family time and we'll be continuing to explore new opportunities to help and encourage Kiwi families to make the most of their time together. Visit www.familytimeproject.co.nz to learn more.

“THE SERVICE AT INGHAM HYUNDAI IS SECOND TO NONE. THE STAFF ARE HELPFUL, FRIENDLY, CARING AND VERY INFORMATIVE”

The Spirit of New Zealand sailing off the coast of Northland with the next generation of New Zealand leaders

We've actively supported Surfing and the National Agricultural Fieldays for quite some time. We also sponsor Country Calendar, put money into NZ sailing, and are major sponsors of the Spirit of Adventure Trust.

Our sponsorships allow us to offer customers the chance to join us as VIP guests at many of our events, including on board the Spirit of New Zealand and at Fieldays. Look out for these invites from time to time.

The Hyundai Experience will continue to grow and expand. We really want to give you the most rewarding experience you've ever had with a company.

We are Hyundai New Zealand, with the emphasis proudly on New Zealand.

Hyundai Ambassador Team

Speaking of 0800 numbers, if you dial 0800 HYUNDAI (498 632), you'll be talking directly to one of our Hyundai Ambassador Team members in New Zealand. We operate a local call centre. Our team are trained to support you with any concerns, and they'll be able to help you out with anything you need them to.

We respond to every request, no matter how big or small, as quickly as we can. That's the New Zealand way of doing things, and it's our way too.

If it's an emergency you'll be put straight through to our Roadside Assistance people, who're trained to deal with this situation and will get someone out to you as quickly as possible if that is what is required.

In the company of Kiwis

The Hyundai brand has grown rapidly into a global auto industry powerhouse. But first and foremost, Hyundai New Zealand is a New Zealand company.

All our dealerships – and Hyundai's head office – are 100% owned and operated by New Zealanders. That's something we're pretty proud of.

This structure gives you the best of both worlds. The benefits of global resources and the huge investment in Research & Development that Hyundai makes, combined with our local commitment and understanding.

We're also very aware of what it means to be a New Zealand company. Our commitment to being a good Kiwi citizen starts with our treatment of customers and extends out into their communities.

Hyundai Country Calendar visits Doug Avery and his mates on his North Island farm for a yarn.

Specifications, features, equipment and colours shown in this brochure are subject to change without notice or obligation. *Fuel consumption figures are based on ADR 81/02 tests and factory information. These figures are provided to assist you in comparing the fuel consumption of the Veloster range with other vehicles. The actual fuel consumption will depend, however, on many factors, including your driving habits, the prevailing conditions and your vehicle's equipment, condition and use. **Finishes specified as leather contain a combination of genuine leather, polyurethane leather (leather substitute) and man-made materials.
