iLoad in Hyper Silver with Barn Door & Panel Van options shown

# Welcome to the iLoad & iMax

Meet your new workmate. The Hyundai iLoad and iMax are everything you need in a van, and then some. Big, strong, and reliable, both models are hugely practical and extremely cost efficient. They're not afraid of hard work either. But it doesn't stop there.

As well as being built to tackle the rigors and demands of your business, they're packed full of useful features. Dual front and side airbags, ABS brakes and Electronic Stability Control (ESC) come as standard. Doors on both sides and at the back means access to the load/work space is a breeze. And the locking differential gives traction on the most challenging driveways or work sites.

Combine all this with sleek European styling and you begin to see why the iLoad and iMax are taking the working van to a whole new level.

Whether you're a tradie or suited and booted, shifting cargo or ferrying people, you can trust these stylish, dependable vans to help you do all the hard yakka. Just like a good workmate should.

iLoad in Hyper Silver shown on left  
iLoad in Timeless Black shown on right

# Exterior

Before we created the Hyundai iLoad and iMax, we listened to the people that really matter: you, the trade and business people, the ones who're going to use it. That's why both these tough models boast an extremely spacious interior for cargo, and incredibly low running costs.

Dual sliding side doors and a fully-opening lift-type rear door (or barn door option on the iLoad) provide easy access to the massive load/work space.

There are also four rear sensors on the iMax to help when reversing - essential for a hard-working, fully-laden passenger van.

And the overall design is further enhanced by a strong grille and integrated headlights, flared wheel arches and raked windscreen - making the iLoad and iMax not just a hard worker, but a smart one too.

## **Alloy wheels:**

To complete the sophisticated look, the iMax comes in distinctive 17" alloy wheels. iLoad models come fitted with 16" steel wheels, practical and perfect for this workhorse.

## **Foglights:**

Front foglights are standard on the iMax and give you safer driving during difficult visibility.

## **Auto light control:**

The iLoad & iMax's light-sensitive sensors recognise lowering light levels and automatically turn the headlights on when you need them. They also switch themselves off when ambient light levels increase.

iLoad in Hyper Silver with privacy glass shown

# Interior

Once inside, you'll find the iLoad and iMax vans crammed full of thoughtful, practical features - but they're certainly not cramped for space.

Both models give everyone plenty of room to stretch out. The iMax carries up to 8 people without missing a beat. The iLoad offers heaps of space for storing your stuff - the 3-seater hoards a massive 4,426 (VDA) litres, whilst the optional 5-seater boasts a hefty 2,511 (VDA) litres of capacity.

As for features, there's a whole range of them within easy reach. Air-conditioning and a state-of-the-art audio system come as standard, as do electric front windows and central locking. A handy upper storage compartment, twin glovebox and dual cup holders also give easy access on the go. Because when you're working hard, you want to be comfortable too.

## **Auxiliary audio input, including iPod connectivity and Apple CarPlay/Android Auto:**

The iMax and iLoad make connecting your gadgets easy. Your iPod, smartphone or personal music player plugs straight into the audio system. Just as easy (and with safety in mind) are the steering wheel mounted audio controls, which let you select a song, mute and change the volume without taking your hands off the wheel. Apple CarPlay & Android Auto allows you to safely operate your iPhone via the central 7-inch touchscreen.

## **Climate air-conditioning with interior pollen filter:**

All iMax models feature Climate air-conditioning. Set your desired temperature range and the sophisticated air-conditioning system will do the hard yards. (Excludes iLoad models).

## **Manual air-conditioning with interior pollen filter:**

All iLoad models feature manual air-conditioning so that you can stay within your desired temperature range at all times.

## **Rear air-conditioning vents:**

Spread the air-conditioning to where it's needed on iMax models, to the second and third row of seating so everyone's kept at the right temperature on the journey.

## **Fold-down central armrest:**

The fold-down central armrest on iLoad vans features two large cup holders and large storage tray, a useful place to store papers and anything else you need to keep in close proximity. Fold the armrest up and it doubles as the middle seat on iLoad vans.

Auto iLoad shown - Cruise Control only available on auto.  
Apple CarPlay operates with USB connectivity.

# Safety

At Hyundai New Zealand we treat safety seriously, and never more so than in a working environment. For starters, all our vans are built from tough, high-tensile steel from our very own steel mill.

Class-leading safety features also come as standard, including ABS brakes, Electronic Stability Control (ESC) and Traction Control System (TCS) for safer, more intelligent handling.

In the event of a serious impact, dual airbags instantly inflate to protect the driver and front-seat passenger. And to give you even more peace of mind, every iLoad and iMax van is equipped with its own safety pack: including a reflective safety vest and first aid kit. So you can always play it safe at work.

## Electronic Stability Control (ESC):

This life saving safety technology continuously monitors vehicle directional stability and tyre traction. If the system senses the vehicle is about to skid and risks spinning out of control, ESC automatically intervenes, applying the brakes over individual wheels to help prevent loss of directional control.

## ABS Braking with Electronic Brake-Force Distribution (EBD) and Brake Assist (BAS):

Active safety features constantly monitor the road conditions and adjust accordingly. Brake Assist (BAS) and Anti-lock brakes (ABS) help you maintain control while braking.

## Reversing sensors:

Four sensors embedded in the rear bumper sound an alarm to warn the driver about the proximity of objects behind them when reversing (iMax models only).

## Reversing camera:

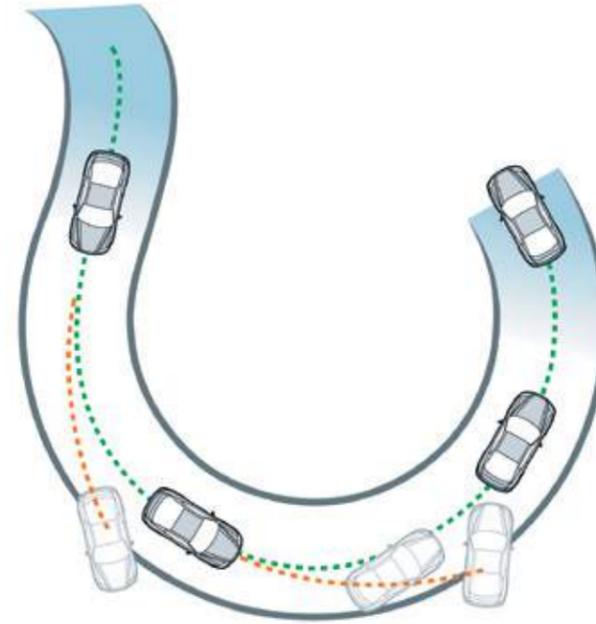

To make reversing easier and bump free, a reversing camera is standard across the range. When reversing, simply look at the monitor on the dashboard to get a clear view of behind.

## Airbags:

To make sure that you and your passengers are fully protected in the unlikely event of a collision, we've installed plenty of interior safety equipment into the iLoad and iMax. There are four airbags including driver and front passenger airbags as well as side air bags.

## Always-on Headlights:

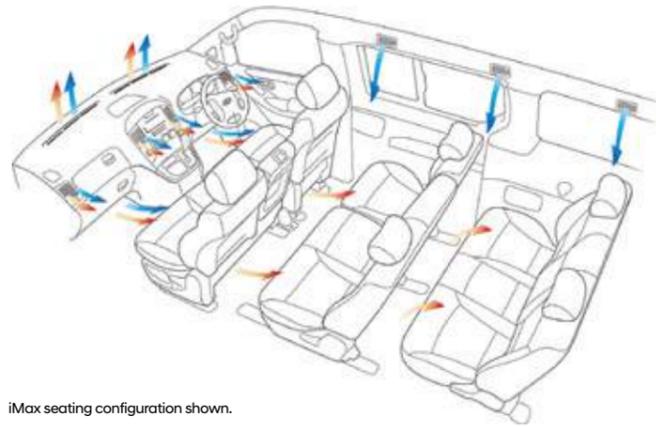

Standard on all models, Always-on Headlights help you to stand out from the crowd when cruising, or better seen in low light conditions when your full headlights aren't in use.

# Technology

iMax control panel shown.

iMax seating configuration shown.

Big on size, big on technology. We've developed a long list of smart features to make the working day more comfortable, more entertaining and safer than ever before. In fact the iLoad and iMax includes the kind of intelligent features you wouldn't necessarily expect from a family car, let alone a work vehicle.

### Heated drivers seat:

iMax models boast a heated driver seat with different levels, so on those chilly mornings, you'll be nice and snug.

### 7-inch touchscreen:

We are excited that the iLoad and iMax will have this smart technology, which allows you to safely operate your phone via the central seven-inch touchscreen. This means you can safely stay connected, and continue to enjoy many of the great features on your phone, including getting directions, making calls, sending or receiving texts, and listening to music, pod-casts or audio-books.

### Air-conditioning:

iLoad and iMax vans feature an efficient, effective and simple to operate air-conditioning system. The rotary type setting controls are easy to use and easily accessible by both driver and front passenger.

### Bluetooth handsfree phone system:

Bluetooth handsfree is available on all iLoad and iMax models and means you can safely talk on your phone while driving. The system is driven through the stereo and works with all Bluetooth enabled phones, with the ability to answer and end calls with the touch of a button on the front dash.

### Bluetooth audio streaming:

Stream music from your smartphone or Bluetooth enabled music device over the Bluetooth connection, straight to the iMax and iLoad's audio system and enjoy the convenience of bluetooth connectivity. (Apple CarPlay/Android Auto requires connecting via USB cable).

### Central locking with keyless entry, anti-theft alarm and engine immobiliser:

Lock and unlock all the doors with the click of a button, and experience the security of an anti-theft alarm and engine immobiliser on all iLoad and iMax models.

### Apple CarPlay/Android Auto:

Apple CarPlay & Android Auto allows you to safely operate your iPhone via the central 7-inch touchscreen. This means you can safely stay connected, and continue to enjoy many of the great features on your phone, including getting directions, making calls, sending or receiving texts, and listening to music, podcasts or audiobooks (for compatible smartphones only).

# Performance

To be a workhorse you need horsepower. Here again the Hyundai iMax and iLoad won't let you down with a highly efficient diesel turbocharged engine.

The turbocharged 2.5 litre diesel engine mated to an automatic transmission delivers a phenomenal 125kW of power at 3,600 rpm with a colossal torque of 441Nm.

Automatic models have a sequential sports shift, allowing you to go through the gears manually without a clutch. While 6-speed manual transmission models feature a dual-mass flywheel to reduce drivetrain noise, as well as optimised gear ratios and tough synchros for ease of shifting.

iMax and iLoad models feature an extremely flexible suspension system that includes MacPherson struts in the front with coil springs and gas-filled shock absorbers. The rear of the iLoad features a leaf spring setup with gas-filled shock absorbers for superior load carrying capacity. The iMax features a rigid axle 5-link suspension in the rear with coil springs and gas filled shock absorbers to maximise cabin space so you can fit all your passengers in.

Add to this excellent fuel economy and a locking differential for when the going gets tough and you've got a van that does the hard yards with grace and power.

**Locking differential:**

The locking differential on iLoad and iMax vans allows you to get out of a slippery bind. If one wheel is slipping more than the other, the locking differential forces both wheels to exert the same power down, allowing you to pull yourself and your cargo out of any slippery situation.

2.5 DIESEL ILOAD AUTO

\*Fuel consumption Source: Australian Design Rule 81/02 static laboratory combined average city and highway cycle test. Fuel consumption figures are provided as a guide for comparative purposes. Fuel consumption will vary depending on a combination of driving habits and the condition of the vehicle. To find out more information about fuel economy and how to improve fuel economy, visit [www.eeca.govt.nz](http://www.eeca.govt.nz)

iLoad barn doors available through indent order only.

# iLoad Van optional extras

## 5 OR 6-SEAT ILOAD VAN\*

A 5 or 6-seat option is available for the iLoad. Two or three seats at the front and three in the rear gives the flexibility to carry five or six people, leaving ample space for cargo as well.

## FULL STEEL (WITH WINDOW) BULKHEAD\*

For increased security between the front seat passengers and the cargo area, an all-steel full-size bulkhead with a window built into the upper section is available (iLoad only).

## REAR BARN DOORS\*

This option is available to those loading cargo with forklifts, who require easier access to rear goods or who simply like the cosmetic style of dual opening rear doors (iLoad only).

## PANEL REAR SIDE WINDOWS\*

The panel rear side windows feature solid panels adding to security and peace of mind by preventing prying eyes from viewing into the cargo area (iLoad only).

## MAG WHEELS

Fuoco-6 16" & 17"  
Raptor-6 16" & 17"  
HRS H-400 16"  
Mak Stone 4x4  
Mak Stone 6  
Black Rhino  
Tanay

# Accessories

## CUSTOM MAT SET

Protect carpets from wear-and-tear and give the interior a smart finish.

## CUSTOM NUDDGE BAR

Add style to your iLoad or iMax and protect your vehicle by fitting an alloy nudge bar.

## CARGO BARRIER

Fit an optional cargo barrier for safely carrying large loads in the rear (iLoad only).

## CUSTOM TOWBAR

For those who wish to tow a trailer, a robust compact towbar can be custom fitted to your iLoad or iMax.

## GENUINE ROOF RACK KIT

Safely carry a substantial load capacity of 125kg, evenly distributed across the three bars. Trade-quality roof rack set with capacity to add further storage and mounting units.

## HEADLIGHT COVERS

Smart, modern, transparent covers are available for extra protection of headlights and turn indicators.

## REAR BULL BAR

Rear bull bar options include a commercial one piece set including rear bull bar and technician steps, or a polished alloy rear bull bar.

## REVERSING SENSORS

Sensors embedded in the rear bumper sound an alarm to warn drivers about the proximity of objects when reversing (reversing sensors are standard on iMax models).

## RUBBER MAT SET

Use the rubber mat set to provide some heavy duty protection of carpets and keep the interior in pristine condition.

## STYLE VISORS

A transparent set of style visors can be individually fitted to the front doors of iLoad and iMax models and enable the window to remain open in all weather conditions.

**DID YOU KNOW THAT A STANDARD 24 X 12 BUILDING SHEET FITS INTO THE BACK OF AN ILOAD?**

\*Indent order only.

# Hyundai's Commitment to you

## Our promise

We understand your decision to purchase one of our vehicles is not being made lightly and we thank you for putting Hyundai on your list. We know that by the time you decide which vehicle you want to purchase, you'll have had a good look at what's on offer in the market, and carefully weighed up the pros and cons of each. We hope you make the right decision for yourself. If you do decide to choose Hyundai, that won't be the end, it'll just be the start. Our goal is to live up to the confidence you've shown in us, by giving you the best customer service experience in New Zealand.

We call this the Hyundai Ownership Experience – which is a slightly corporate way of saying “we promise to look after you”.

The Hyundai Ownership Experience will actually start before you even have the keys in your hand, as your Hyundai dealer takes you through the things you need to know to get the most out of your new vehicle.

## Personal handover

When you come in to pick up your new Hyundai, your dealer will take you through it from bumper to bumper. They'll show you where everything is and how everything works. They'll make sure you're across all those little things most people forget to ask about, like:

- » How to set up your mobile phone to work with Bluetooth
- » Where the tool kit and spare tyre are
- » How to connect and play your iPod through the audio system
- » Where to find the first aid kit

They'll also check there's a full tank of fuel, that the vehicle is spotless inside and out, and that any accessories you specified are fitted just so.

This is also our opportunity to introduce you to the service team, who'll be looking after you in the years to come.

**“THE DEALER EXPLAINED THE TUCSON TO ME AND WAS PATIENT WHEN WE HAD QUESTIONS.”**

— GARY COCKRAM HYUNDAI CUSTOMER FROM CHRISTCHURCH

## Meet the rest of the family

There's a good reason why your dealer will introduce you to the rest of the family. They're the people entrusted to be hands-on through your Hyundai Ownership Experience – the team who'll look after you and your vehicle when you come in for scheduled servicing.

There's no charge for the first service, and it happens after the first month on the road. Then it happens every 15,000 km (or yearly) after that.

It's always good to be able to put a face to a name. And knowing them means you can call personally to discuss any concerns. Our people are experts at what they do and keen to show you how good they are. It's a pride thing and we encourage it.

## A superb warranty and Roadside Assistance

Every new Hyundai is protected by our 3 year / 100,000 km factory warranty. In a nutshell, if there's any manufacturing issues, we'll fix them. But there's more.

Hyundai Roadside Assistance is included as part of our new vehicle warranty. It means if you should have an accident, puncture a tyre or run out of fuel anywhere in New Zealand, we'll send someone to get you up and running again – 24 hours a day, 365 days a year.

Extending your warranty beyond the factory period can make your ownership experience better yet. It's certainly worth considering. Our extended warranties can later be on-sold with the vehicle, something sure to increase its eventual resale value.

## Servicing from trained Hyundai experts

Regular scheduled servicing within our network has real benefits.

Our specialist technicians use Hyundai diagnostic equipment to spot things that may be missed by the untrained eye.

We use genuine Hyundai parts, of course. These parts are built and tested to be specifically correct for your vehicle and are covered by a 1 year / 20,000 km warranty.

Your safety and the safety of your passengers are our number one priority. We can't vouch for the safety or performance of non-Hyundai parts. They have to be only slightly off or incorrectly installed and the integrity of your vehicle will be compromised.

If the cost of servicing is a concern for you, committing to a pre-paid service contract from day one will cost you less in the long run. You can sign up for these to cover your servicing needs for every service interval, which is every 15,000 km or yearly (whichever happens first). You can do this for as many years as you want, and they're available for any Hyundai, no matter how old.

## iQ Enrich your Hyundai ownership with iQ

Hyundai iQ is an online space designed to make your experience of owning a Hyundai even more seamless. On iQ you'll find practical tools, like the ability to set up reminders for when your next service is due, when your WOF and Road User Charges are about to expire and more. You can even book your next service online, and if you have your vehicle serviced at a Hyundai dealership, your service history records will show in iQ.

Receive free Roadside Assistance for the first 3 years of owning your vehicle. However, if you update your odometer

in iQ once in a 6 month period and you're eligible, we'll give you free Roadside Assistance for the following 6 months for free. There's heaps of fun stuff like free Kiwi song downloads, kids' audio books for the road, and a growing library of helpful videos for you to enjoy - and it can all be done on your computer, smartphone or tablet.

Join as an owner or non-owner and share your opinion about your Hyundai, or ask existing owners about what it's like to own one. To sign up, simply visit [www.hyundai.co.nz/iQ](http://www.hyundai.co.nz/iQ) and complete the simple registration process. We look forward to having you in the iQ community!

[www.hyundai.co.nz/iQ](http://www.hyundai.co.nz/iQ)

## Insurance

Our insurance offering is part of Hyundai's commitment to improving your ownership experience.

Hyundai Insurance offers several exclusive benefits not available with other motor vehicle policies. For example, if your Hyundai is still in factory warranty, was purchased from a Hyundai dealer in New Zealand and is damaged beyond repair, we'll replace it with a brand new one\*.

There's no excess if your windows are broken, and we'll even cover up to \$1,500 for the trailer you were towing if that's damaged\*.

You can be sure only guaranteed, genuine Hyundai parts will be used in repairs\*\*, and that only approved repairers will be working on your vehicle.

We also offer a Hyundai Insurance specific 24 hour assistance number: 0800 123 266.

\*See your Hyundai dealer for full terms and conditions.  
\*\*Applies to new vehicles for five years.

## Hyundai Fleet

If you're looking for the right vehicles for your business, Hyundai has the perfect fleet solution for you.

Whatever your business size or requirements, you can get the job done by choosing from Hyundai Fleet's diverse range of 14 models and 3 trucks, all of which offer the latest in technology, efficiency, safety and style. And as a Fleet customer, you have the flexibility of a range of ownership and leasing options, as well tax benefits and great value servicing.

So, from the city loving Accent to the cargo carrying iLoad, our fleet services can provide the right vehicles to help drive your business forward. For more information visit [www.hyundai.co.nz/fleet](http://www.hyundai.co.nz/fleet)

## In the company of Kiwis

The Hyundai brand has grown rapidly into a global auto industry powerhouse. But first and foremost, Hyundai New Zealand is a New Zealand company.

All our dealerships – and Hyundai's head office – are 100% owned and operated by New Zealanders. That's something we're pretty proud of.

This structure gives you the best of both worlds. The benefits of global resources

and the huge investment in Research & Development that Hyundai makes, combined with our local commitment and understanding.

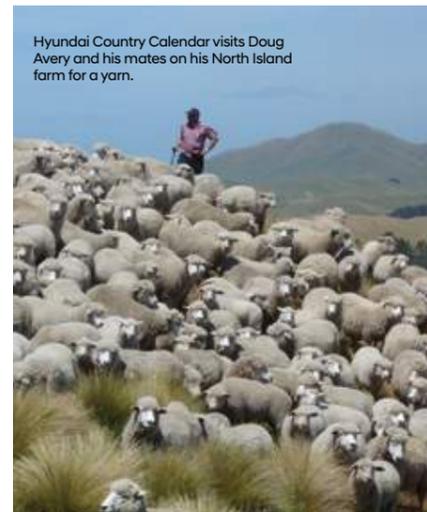

We're also very aware of what it means to be a New Zealand company. Our commitment to being a good Kiwi citizen starts with our treatment of customers and extends out into their communities.

We've actively supported the National Agricultural Fieldays for quite some time. We sponsor Hyundai Country Calendar, put money into NZ sailing, and are major sponsors of the Spirit of Adventure Trust. We're also extremely proud of our New Zealand sponsorship of Kiwi rally driver, Hayden Paddon.

Our sponsorships allow us to offer customers the chance to join us as VIP guests at many of our events, including on board the Spirit of New Zealand and at Fieldays. Look out for these invites from time to time.

The Hyundai Experience will continue to grow and expand. We really want to give you the most rewarding experience you've ever had with a company.

We are Hyundai New Zealand, with the emphasis proudly on New Zealand.

Hyundai Country Calendar visits Doug Avery and his mates on his North Island farm for a yarn.

## Hyundai Ambassador Team

Speaking of 0800 numbers, if you dial 0800 HYUNDAI (498 632), you'll be talking directly to one of our Hyundai Ambassador Team members in New Zealand. We operate a local call centre. Our team are trained to support you with any concerns, and they'll be able to help you out with anything you need them to.

We respond to every request, no matter how big or small, as quickly as we can. That's the New Zealand way of doing things, and it's our way too.

If it's an emergency you'll be put straight through to our Roadside Assistance team, who are trained to deal with any situation and will get someone out to you as quickly as possible if that is what is required.

Future New Zealand leaders as part of the Pinnacle Programme spend 21 days on New Zealand's iconic Outward Bound programme in Anakiwa, at the top of the South Island.

## The Hyundai Family Time Project

Kiwi families are busier than ever. We have less time for each other than we had a generation ago. We're certainly working longer hours.

We did some research and found that 50% of New Zealanders say work commitments are reducing the amount of time spent with their families and 30% believe work is eating into precious weekend time together.

This is not ideal, so Hyundai New Zealand has come up with an ambitious plan to help make things right. It's called the Hyundai Family Time Project and its goal is to remind New Zealanders of the importance of every single hour they spend with their families.

To launch the project we gave away a year of family time and we'll be continuing to explore new opportunities to help and encourage Kiwi families to make the most of their time together. Visit [www.familytimeproject.co.nz](http://www.familytimeproject.co.nz) to learn more.

## "A NICE SURPRISE TO COME BACK TO MY VEHICLE ALL GROOMED AFTER ITS SERVICE."

— MANUKAU HYUNDAI CUSTOMER

Watch Ruby's story on [www.familytimeproject.co.nz](http://www.familytimeproject.co.nz)

## The Pinnacle Programme

The Pinnacle Programme is a unique scholarship, backed by Hyundai New Zealand, which provides talented young New Zealanders between the ages of 15 and 18 with the foundations for future success. The Programme is open to young kiwis with talent in all areas of endeavours, including, but not limited to, art, sport, science and business.

If you're a New Zealander that fits this criteria or if you know a young kiwi who could be suitable for the Programme, please join us on [www.pinnacleprogramme.co.nz](http://www.pinnacleprogramme.co.nz)
