

Sonata

100% Kiwi owned.

The Hyundai brand has grown rapidly into a global automotive powerhouse, but first and foremost we are a local business. Hyundai New Zealand is 100% Kiwi owned and all our Hyundai dealers are 100% NZ operated. This means we are a New Zealand company helping New Zealanders grow.

Sonata 2.4 GDI Elite in White Cream shown

Welcome to the Sonata Series II

The Hyundai Sonata sets a benchmark in driveability on any kind of road anywhere in New Zealand. This stunning mid-size sedan with its sculpted, fluidic design gives you unsurpassed levels of comfort and performance.

A 5-star ANCAP rating provides the ultimate in safety and peace of mind.

The Sonata achieves great fuel economy that you would expect, with a sleek shape that delivers an incredibly low drag co-efficient, enabling even greater fuel economy. Offering a choice of two engines, the Sonata won't let you down in the performance stakes either.

You'll soon discover that it represents more than just good looks and impressive performance. The high-quality design, workmanship and attention to detail that distinguishes the exterior have been carried through to the interior. The fit, finish and features are immaculate.

So welcome to the Sonata. It's the perfect fit for the New Zealand lifestyle – business or leisure.

Sonata 2.4 GDI Elite in White Cream shown

Exterior

The perfect mid-size sedan for business or leisure. The sleek shape of the Sonata reflects an image that's both sporty and refined. If beauty is more than skin deep, then the Sonata is not just a pretty face. Hyundai's distinctive sweeping curves are set off by the unique lamp graphics and the electric-folding side mirrors with LED indicator lights.

Fluidic sculpture:

The Sonata's design is stunning. The organic flowing lines that create its aesthetic look are based on Hyundai's 'fluidic sculpture' design philosophy. Complementing these fluid lines are the front Daytime Running Lights (DRLs) that mirror the flowing shape of the Sonata's front grille, which is set in chrome on all models.

Panoramic sunroof:

Let the light shine in while all your passengers enjoy panoramic sky views. The Sonata's audacious glass roof creates a true sense of space. The electronic-controlled centre panel can be opened or tilted partly open (Limited model only).

Heated side mirrors:

Heated side mirrors help to maximise visibility during cold and wet conditions, making reversing easier and enhancing safety.

Auto-folding outside mirrors with indicator lights:

The unique power-folding outside mirrors can help you to fit into the tightest spaces. Once parked, they will automatically fold and unfold when you use the Sonata's key. The indicator lights on all models are located on side mirrors to enhance convenience and safety.

Alloy wheels:

The Sonata offers two distinctive and eye-catching wheel options. Both alloys feature modern, tasteful designs and are fabricated using the strongest, most durable aluminium alloy. All grades of Sonata carry a full-size alloy spare wheel.

LED Daytime Running Lights (DRLs):

See the road more clearly and be more easily spotted by other drivers. This feature not only looks good – it also provides additional visibility. You can drive more confidently and safely in foggy conditions.

Sonata 2.4 GDi Elite in White Cream shown

Interior

Fresh, modern and superbly fitted out, the interior of the Sonata is designed to put you comfortably in control. Everything is elegant, yet understated. The interior reflects Hyundai's high-level design, workmanship and attention to detail. It's packed with technology, including full auxiliary input, iPod and USB connectivity and a Bluetooth hands-free phone system. On Elite & Limited models, check out the special features like the 10-way electric driver seat and the push-button engine start. You can look forward to a driving experience that's both effortless and enjoyable.

Leather seats:

Treat yourself. The Sonata Elite & Limited models feature luxurious leather on the seats, door trim, centre console, as well as the steering wheel and gearshift trim on all Sonata models.

(Finishes specified as leather contain a combination of genuine leather, polyurethane leather (leather substitute) and man-made materials).

60:40 split-rear seats:

The split-rear folding function enables you to fold the seats the way you prefer. The Sonata gives you greater boot space. You can load up to four golf bags and four soft carry bags. Comfortably accommodate your passengers and also create the space you need to transport your gear. Pack as much as you can into your weekend and your Sonata.

Smartphone & iPod connectivity:

Stay connected. The Sonata allows your iPod, smartphone or personal music player to plug straight into the audio system so that you can listen to your music when and wherever. With safety in mind, the steering wheel-mounted controls mean you can select a song, mute and change the volume – all without taking your hands off the wheel. All models take this experience to the next level, allowing you to stream

your music from your smartphone over the Sonata's Bluetooth connection.

Reversing camera standard:

One of the most useful features on a new car, reversing cameras are standard on every new Hyundai vehicle in New Zealand. The reversing camera makes it easier to reverse your vehicle in tight parking situations, particularly in inner-city parking buildings, narrow driveways and in shopping-mall car parks. It also simplifies the process of hitching a trailer onto your vehicle's tow ball.

Supervision cluster:

The updated supervision cluster on the Sonata Elite & Limited models feature a Liquid Crystal Display. You'll find it nestled in the centre of the gauge cluster. Bright and easily readable, its soft, cool blue lighting is cleverly designed to be easy on your eyes and reduce fatigue.

Front and rear heated seats:

All good so far? We're just warming up. The Sonata Elite & Limited models provide the option of high-speed heating (26-degrees in three minutes) for the seats of both front and rear passengers, so that you can remain cosy inside regardless of the temperatures outside.

Heated steering wheel:

A great feature that will be much appreciated on a freezing New Zealand winter's morning when your hands need to be warm enough to grip the leather steering wheel safely. An ergonomic grip also provides greater hand comfort. The reinforced thumb rest provides vehicle stability while driving at high speed. You'll feel comfortable whichever area of the steering wheel you prefer to grip (Limited models only).

Electric seats:

Slide into the ergonomically designed seat. Notice how every driver comfort has been considered. Adjust to maximise your personal comfort. The driver's seat on Elite & Limited models is electrically adjustable in ten different directions, including lumbar support. The front passenger's seat electrically adjusts in four different positions.

The Sonata offers enhanced cushion comfort as well as improved movement to increase your comfort and relaxation during long-distance trips.

Smart Cruise Control (SCC):

The SCC system on Elite & Limited models varies your pre-set speed by using data from its radar to maintain a consistent distance behind the vehicle ahead.

Limited model interior shown

Safety

All Sonata models are equipped with advanced safety features to help you control the vehicle in the most challenging conditions. Safety in the Sonata begins with a body shell made from ultra-high-tensile steel from our very own mill. Advanced active and passive safety technologies also ensure maximum protection for all vehicle occupants. A reversing camera on all models as well as front and rear parking sensors on Elite & Limited models mean you always know what's going on around you. And the inflow of high-frequency sound to the interior space has been reduced in the Sonata, by increasing sound insulation efficiency.

Six airbags:

For greater peace of mind, there are six airbags on all models: dual front, dual side and dual front-to-rear roof curtain airbags. Front passengers also have active head restraints, which provide better neck support by moving forward instantaneously in the event of a rear-end collision. The Sonata's collision lock device in the seats of the driver and front passenger prevents seatbelts loosening during collision. This minimises the damage to passengers by reducing their movement.

Vehicle Stability Management (VSM) with Electronic Stability Control (ESC):

Designed to help on wet and slippery roads, Vehicle Stability Management works with Electronic Stability Control to give the Sonata more stability, so you can drive with added confidence on tricky surfaces.

Lane Change Assist (LCA):

Changing lanes is an important manoeuvre, so when you use the Sonata's indicators, Lane Change Assist gives a visual and audible alert if a vehicle is approaching quickly from behind. The steering wheel also vibrates to warn you of the potential hazard (Limited models only).

Rear Cross Traffic Alert (RCTA):

It's difficult to see vehicles approach from either the rear left or rear right when you're reversing out of a driveway, so Rear Cross Traffic Alert warns you with an audible alert if a moving object is detected while the Sonata is reversing (Limited models only).

Blind Spot Detection System (BSD):

The Sonata will detect other vehicles located in your blind spots and give you an audible warning to let you know they are there if you indicate to manoeuvre into a new lane. It also detects vehicles that approach at high speed from the rear of the Sonata and gives you warning signals (Limited models only).

Electro-Chromatic rear view Mirror (ECM):

To improve safety while driving at night, the rear view mirror automatically darkens to reduce the headlight glare from the vehicle behind you.

Emergency Stop Signal (ESS):

An innovative new safety feature. Emergency Stop Signal activates all rear lights when you hit the brakes heavily during emergency braking. This means you're more visible on the road, warning the traffic following behind you.

Rain-sensing wiper system:

One less thing to worry about – whenever rain drops are detected on the windscreen of Elite & Limited models, the rain-sensitive wipers spring into action to make light work of the heaviest downpour. Let it rain, let it hose down – you're sorted.

Lane Departure Warning System:

If the Sonata drifts outside the lane without signalling, Lane Departure Warning will alert the driver with a warning sound (Elite & Limited models only).

Sonata 2.4 GDi Elite in White Cream shown on left
Sonata 2.0 GDi Turbo Limited in Red Valentine shown on right

Technology

To provide the best fit with our modern Kiwi lifestyle we've loaded enough technology to keep everyone happy. As you'd expect from a Hyundai of this quality, the Sonata comes with some clever features that make those long trips easier, and more relaxing when you're cruising around town. So no matter how long the journey, everyone inside will be entertained in comfort.

Dual zone climate control air conditioning:

Air conditioning is standard across the Sonata range because, let's face it, there's nothing constant about our weather. So just dial up your personal comfort zone for any journey. What's more, the automatic dual zone climate control on Elite & Limited models means staying at the temperature you want is something you won't even have to think about. How cool is that?

Proximity key and engine start/stop button:

With the proximity key in your pocket, the Sonata recognises you. With just the touch of a button on the door handle, the vehicle unlocks itself without you needing to press the key. The Sonata also features a push button start, so you can start the engine without turning the key in the usual way (Elite & Limited models only).

Advanced audio system:

Take your music with you wherever the road takes you. The Sonata's high-quality sound system accurately reproduces your favourite music through six optimally tuned high-performance speakers. You can also stream music directly from your Bluetooth-compatible smart phone or media device. The system includes AM/FM stereo, in-dash MP3 compatible sound system and USB auxiliary connectivity. Your music device will plug straight into the audio system, so you can listen to your music when and wherever you please. And you have control from the steering wheel-mounted controls.

Bluetooth hands-free phone system:

This is available on all Sonata models so you can safely talk on your phone while driving. Enjoy your Bluetooth-enabled mobile phone and the multimedia sound system – all of which you have complete control over via the steering wheel-mounted controls. You can also stream your music over the Bluetooth connection and it plays through the stereo system – clever. The stereo mutes itself when a call comes in and is compatible with all Bluetooth-enabled phones.

Automatic dusk-sensing headlights:

The headlights turn on automatically as the light fades. The light-sensitive exterior sensors recognise lowering light levels and automatically turn the headlights on when you need them. Or if you prefer, you can use the override switch.

Electric Park Brake:

The new-style parking brake allows you to apply and release the brake with a convenient single touch. There's also an auto hold button that when switched on automatically applies the brakes when you stop. Then when you turn off the ignition, auto hold automatically puts the handbrake on (Elite and Limited models only).

Apple CarPlay™ & Android Auto™ compatibility:

Once your journey is underway, the Sonata Elite & Limited's Apple CarPlay™ and Android Auto™ lets you safely play music, make calls or get directions on the easy to use 8-inch touchscreen. Disclaimer: Apple CarPlay™ requires iPhone 5 or subsequent model (with lightning cable) in order to operate. Android Auto™ requires a device with Android 5.0 operating system or subsequent version in order to operate.

Satellite Navigation system:

Even short trips become more enjoyable with this system. Reduce the stress of finding your destination, get there sooner, save time, drive less distance, resulting in less fuel

consumption and emissions. The high-tech Satellite Navigation system on Elite & Limited models is loaded with HERE MAPS New Zealand street maps to help you find your way. It also incorporates SUNA™ GPS Live Traffic Updates, which offer you up-to-the-minute information on traffic incidents such as accidents, road closures, congestion, major road works and special events.

Steering wheel-mounted audio and cruise controls:

The Sonata's multi-functional steering wheel puts everything you need at your fingertips. This includes your cruise control, which means you can relax while maintaining a constant speed.

Performance

New Zealand roads are known for their sudden hills, short straights, winding inclines and changing surfaces. This is where the stunning Sonata is completely at home. Handling complicated or unexpected twists and turns becomes a breeze. More than just great looks and a long list of special features, the effortless performance of the Sonata will keep you smiling every time you climb in.

With the Sonata, you have the choice of two engines, the 2.4 litre GDi (Gasoline Direct injection) engine or the powerful 2.0 litre petrol GDi turbo engine. The 2.4 engine produces 138kW of power and 241Nm of torque. The 2.0 litre turbo engine produces 180kW of power and a whopping 350Nm of torque. Talk about a power and efficiency combo.

Designed, engineered and built by Hyundai to produce more power with exceptional fuel economy, these engines are small and lightweight, but extremely durable.

Automatic 6-speed transmission:
The Sonata's automatic 6-speed transmission maximises every drop of fuel as well as performance.

Automatic 8-speed transmission:
The Sonata Turbo comes with Hyundai's all new 8 speed transmission. This state of the art unit offers seamless gearchanges whilst offering exceptional fuel economy and exciting performance. As an added benefit, steering wheel mounted paddle shifters gives the driver complete control.

2.4 PETROL

Sonata GDi Turbo Limited in Blue Sapphire shown

Finer features

Fingertip controls

The Sonata multifunction steering wheel puts everything you need at your fingertips. Manage your music, answer and end phone calls, adjust the cruise control and much more.

Ventilated front seats

The driver and front passenger of the Sonata Limited also has the added luxury of air-ventilated front seats. Fans under the seat cushions pump a gentle stream of cooling air to create exceptional seating comfort, especially when there is high humidity.

Driver's seating memory

Save two different seating positions and switch between them with the touch of a button. (Limited model only).

Front and rear heated seats

So good so far? Well, you could say we're just warming up. Sonata Elite & Limited models boast heated seats for both front and rear passengers, a luxury on most other cars.

Smart boot lid

When your keys are not within easy reach, simply stand within a metre of the rear of the Sonata with the key in your pocket or bag for three seconds, and the Smart Boot will automatically open (Elite & Limited model's only).

Reversing camera and parking sensors

A reversing camera on all models seals the deal to help with parking in tight spots. Four sensors at the front and rear are automatically activated to help assist you with parking (Front sensors are on Elite & Limited model's only).

Panoramic sunroof

At the flick of a switch, the motorised roll blinds retract and the dual panoramic sunroof opens up to brighten up the cabin. The sunroof opening is bigger than ever thanks to an innovative three-piece design (Limited model only).

Isfix child seat anchor points

The Sonata is designed to keep Kiwi families as safe as possible, with three tether child seat anchor points in the rear and ISOFIX child seat anchor points on rear outside seats.

Alloy wheels accessory options

DTM Amos (Gunmetal) 19"

DTM IFG4 (Gunmetal) 19"

Niche Lucerne (Black) 19"

BGW Taunt 19"

BGW Menace 19"

BGW Torque 19"

Accessories

Custom mat set

Protects carpets from wear-and-tear and provides a smart finish to the interior.

Custom tow bar

If you want to tow a trailer, a robust compact tow bar can be custom fitted to your Sonata. Towing capacity (braked) is 1300 kg.

Style visors

A transparent set of four style visors can be individually fitted to each door of the Sonata. They enable the window to remain open in all weather conditions.

Hyundai's Commitment to you

Our promise

We understand your decision to purchase one of our vehicles is not being made lightly and we thank you for putting Hyundai on your list. We know that by the time you decide which vehicle you want to purchase, you'll have had a good look at what's on offer in the market, and carefully weighed up the pros and cons of each. We hope you make the right decision for yourself. If you do decide to choose Hyundai, that won't be the end, it'll just be the start. Our goal is to live up to the confidence you've shown in us, by giving you the best customer service experience in New Zealand.

We call this the Hyundai Ownership Experience – which is a slightly corporate way of saying “we promise to look after you”.

The Hyundai Ownership Experience will actually start before you even have the keys in your hand, as your Hyundai dealer takes you through the things you need to know to get the most out of your new vehicle.

Personal handover

When you come in to pick up your new Hyundai, your dealer will take you through it from bumper to bumper. They'll show you where everything is and how everything works. They'll make sure you're across all those little things most people forget to ask about, like:

- » How to set up your mobile phone to work with Bluetooth
- » Where the tool kit and spare tyre are
- » How to connect and play your iPod through the audio system
- » Where to find the first aid kit

They'll also check there's a full tank of fuel, that the vehicle is spotless inside and out, and that any accessories you specified are fitted just so.

This is also our opportunity to introduce you to the service team, who'll be looking after you in the years to come.

“THE DEALER EXPLAINED THE TUCSON TO ME AND WAS PATIENT WHEN WE HAD QUESTIONS.”

— GARY COCKRAM HYUNDAI CUSTOMER FROM CHRISTCHURCH

Meet the rest of the family

There's a good reason why your dealer will introduce you to the rest of the family. They're the people entrusted to be hands-on through your Hyundai Ownership Experience – the team who'll look after you and your vehicle when you come in for scheduled servicing.

There's no charge for the first service, and it happens after the first month on the road. Then it happens every 10,000 / 15,000 km*.

It's always good to be able to put a face to a name. And knowing them means you can call personally to discuss any concerns. Our people are experts at what they do and keen to show you how good they are. It's a pride thing and we encourage it.

A superb warranty and Roadside Assistance

Every new Hyundai is protected by our 3 year / 100,000 km factory warranty. In a nutshell, if there's any manufacturing issues, we'll fix them. But there's more.

Hyundai Roadside Assistance is included as part of our new vehicle warranty. It means if you should have an accident, puncture a tyre or run out of fuel anywhere in New Zealand, we'll send someone to get you up and running again – 24 hours a day, 365 days a year.

Extending your warranty beyond the factory period can make your ownership experience better yet. It's certainly worth considering. Our extended warranties can later be on-sold with the vehicle, something sure to increase its eventual resale value.

Servicing from trained Hyundai experts

Regular scheduled servicing within our network has real benefits.

Our specialist technicians use Hyundai diagnostic equipment to spot things that may be missed by the untrained eye.

We use genuine Hyundai parts, of course. These parts are built and tested to be specifically correct for your vehicle and are covered by a 1 year / 20,000 km warranty.

Your safety and the safety of your passengers are our number one priority. We can't vouch for the safety or performance of non-Hyundai parts. They have to be only slightly off or incorrectly installed and the integrity of your vehicle will be compromised.

If the cost of servicing is a concern for you, committing to a pre-paid service contract from day one will cost you less in the long run. You can sign up for these to cover your servicing needs for every service interval, which is every 10,000 / 15,000 km* or yearly (whichever happens first). You can do this for as many years as you want, and they're available for any Hyundai, no matter how old.

iQ Enrich your Hyundai ownership with iQ

Hyundai iQ is an online space designed to make your experience of owning a Hyundai even more seamless. On iQ you'll find practical tools, like the ability to set up reminders for when your next service is due, when your WOF and Road User Charges are about to expire and more. You can even book your next service online, and if you have your vehicle serviced at a Hyundai dealership, your service history records will show in iQ.

24 hour, 7 days a week Roadside Assistance is included on every new Hyundai for the first 3 years of the vehicle. Beyond this period if you

update your odometer details on iQ you will receive complimentary roadside assistance for 6 months. There's heaps of fun stuff like free Kiwi song downloads, kids' audio books for the road, and a growing library of helpful videos for you to enjoy - and it can all be done on your computer, smartphone or tablet.

Join as an owner or non-owner and share your opinion about your Hyundai, or ask existing owners about what it's like to own one. To sign up, simply visit www.hyundai.co.nz/iQ and complete the simple registration process. We look forward to having you in the iQ community!

www.hyundai.co.nz/iQ

*Servicing for turbo petrol models is every 10,000 km or 12 months (whichever occurs first)

Insurance

Our insurance offering is part of Hyundai's commitment to improving your ownership experience.

Hyundai Insurance offers several exclusive benefits not available with other motor vehicle policies. For example, if your Hyundai is still in factory warranty, was purchased from a Hyundai dealer in New Zealand and is damaged beyond repair, we'll replace it with a brand new one*.

There's no excess if your glass is broken up to \$2,000 cost, and we'll cover up to \$1,500 cost for the trailer you were towing if that's damaged*.

You can be sure only guaranteed, genuine Hyundai parts will be used in repairs**, and that only approved repairers will be working on your vehicle.

We also offer a Hyundai Insurance specific 24 hour assistance number: 0800 123 266.

*See your Hyundai dealer for full terms and conditions.
**Applies to new vehicles for five years.

Hyundai Fleet

If you're looking for the right vehicles for your business, Hyundai has the perfect fleet solution for you.

Whatever your business size or requirements, you can get the job done by choosing from Hyundai Fleet's diverse range of 14 models and 3 trucks, all of which offer the latest in technology, efficiency, safety and style. And as a Fleet customer, you have the flexibility of a range of ownership and leasing options, as well tax benefits and great value servicing.

So, from the city loving Accent to the cargo carrying iLoad, our fleet services can provide the right vehicles to help drive your business forward. For more information visit www.hyundai.co.nz/fleet

In the company of Kiwis

The Hyundai brand has grown so rapidly as a global automotive powerhouse, it's easy to forget that we're a local business. Hyundai New Zealand is 100% kiwi owned and each and every one of our Hyundai dealerships are 100% NZ operated. That's something we're pretty proud of.

We like to think it gives you the best of both worlds. The benefits of global investment, research and development, combined with commitment and understanding.

But what does it mean to be a New Zealand company?

At a ground level it's how we treat every single customer, every single day. A local business means local response times and local decision making. If there's any issues to be sorted, our team can respond ASAP without the hassle of waiting for sign-off from overseas. Our locally operated Hyundai Ambassador Team are available on phone, text and social media, to help owners with everything they need to love being Hyundai drivers.

It also means helping more New Zealanders, do more of the things they love. Getting stuck in on National and Regional Fieldays, mucking in on Hyundai Country Calendar and being a long-term major partner of the Spirit of Adventure Trust. If anyone knows adventure, it's Hyundai New Zealand.

And if anyone knows adventure at very high speeds, it's rally driver Hayden Paddon. We're extremely proud to help drive Hayden's success, whether he's racing at home or representing his country on the global stage. We're right behind Paddon's Pack and we wouldn't have it any other way.

We're also helping the up-and-coming stars of tomorrow with our Pinnacle Program, a unique scholarship that gives talented young New Zealanders the foundations for success.

Hyundai love everything that makes New Zealand what it is today. But we're also focused on a sustainable and innovative tomorrow. Electric vehicles are here, connected driver services are just around the corner and we're leading the way, all the way.

We are Hyundai New Zealand, with the emphasis proudly on New Zealand.

The Pinnacle Programme

The Pinnacle Programme is a unique scholarship, backed by Hyundai New Zealand, which provides talented young New Zealanders between the ages of 15 and 18 with the foundations for future success. The Programme is open to young kiwis with talent in all areas of endeavours, including, but not limited to, art, sport, science and business.

WWW.PINNACLEPROGRAMME.CO.NZ

Future New Zealand leaders as part of the Pinnacle Programme spend 21 days on New Zealand's iconic Outward Bound programme in Anakiwa, at the top of the South Island.

Hyundai Ambassador Team

Speaking of 0800 numbers, if you dial 0800 HYUNDAI (498 632), you'll be talking directly to one of our Hyundai Ambassador Team members in New Zealand. We operate a local call centre. Our team are trained to support you with any concerns, and they'll be able to help you out with anything you need them to.

We respond to every request, no matter how big or small, as quickly as we can. That's the New Zealand way of doing things, and it's our way too.

If it's an emergency you'll be put straight through to our Roadside Assistance team, who are trained to deal with any situation and will get someone out to you as quickly as possible if that is what is required.

Watch Ruby's story on www.familytimeproject.co.nz

The Hyundai Family Time Project

Kiwi families are busier than ever. We have less time for each other than we had a generation ago. We're certainly working longer hours.

We did some research and found that 50% of New Zealanders say work commitments are reducing the amount of time spent with their families and 30% believe work is eating into precious weekend time together.

This is not ideal, so Hyundai New Zealand has come up with an ambitious plan to help make things right. It's called the Hyundai Family Time Project and its goal is to remind New Zealanders of the importance of every single hour they spend with their families.

• : Standard - : Not Available			

Specifications, features, equipment and colours shown in this brochure are subject to change without notice or obligation. *Fuel consumption figures are based on ADR 81/02 tests and factory information. These figures are provided to assist you in comparing the fuel consumption of the Sonata range with other vehicles. The actual fuel consumption will depend on many factors, including your driving habits, the prevailing conditions and your vehicle's equipment, condition and use. **Finishes specified as leather contain a combination of genuine leather, polyurethane leather (leather substitute) and man-made materials. *** Compatible phones only.
